

# Incidents Summary Report by Category

1. Hover over the **Incidents** icon, click **Reports** and select **Report by Category**

2. This will take you to the **Incidents Summary by Category** screen. Select the selection boxes beside the categories that you want to include in your report, select the dates that you want the report to include, select location and/or select the sub-location. Select the Search Incidents button at the bottom once you have selected all of the criteria that you want to search by. Note, you do not need to select an option in all sections, only the ones that you specifically want information on.
