

Search for a Violation

To search for violations hover over the **Violations** icon and click **Search**.

The **Violation Search** screen is displayed. Type the plate number or violation you want to search for and click the **Search using only text** button. Ticket numbers are composed of two parts, the first part (shown in black below) is the ticket number, and the second part (shown in blue) is the pin number. Admins can search using only the first part, but for security reasons, users must enter both parts of the ticket number to lookup their ticket. **3-001005-11**.

You can also **Search with text and date range** if you want to narrow down the search parameters to a specific date range. As you can see below, there are a number of search parameters you can choose from to further enhance your search results.

Searching By Time Frame

1. It is also possible to search for violations using a time frame filter. In our example here we are searching for any violation written between the hours of 4:00pm and 8:00pm on February 27th.

To access the time setting click on "with time" beside the date field.

Start Date	Feb 27, 2019 16:00	<input type="checkbox"/>	with time	clear
up to and including	Feb 27, 2019 19:59	<input type="checkbox"/>	with time	clear

This will bring up a an interface where you can chose both date and time:

In this example for the start time we are selecting Feb. 27th at 4:00pm (1600 hours).

2. Set the up to and including date and time in a similar fashion. Note that the time blocks are in one hour segments so to choose 8:00pm you would need to select hour 19 which would include 7:00 to 7:59 and appear in the date and time field as 19:59 (see above)

The screenshot shows a 'Select a Date and Time' dialog box. It has three main sections: Year, Month, and Day of Month. The Year is set to 2019. The Month is set to Feb. The Day of Month is set to 27. The Hour is set to 19. Red circles highlight the selected date and time.

3. By using this filtering method the search will return only violations that were issued between 4:00PM and 7:59pm on February 27th,
