

# Branding the Validator Tool

## Accessing the Validator Pages to Edit the Look and Feel

From the **System Config** Menu click on **System Messaging**.

A page with two tabs will appear. Click on the **Messages** tab to access the list of editable messages.

## Manage System Messaging

URL	Title	English	Français	Notes
--lots-detail	Lots Detail	<a href="#">Edit</a>	<a href="#">Create</a>	
/	User Dashboard	<a href="#">Edit</a>	<a href="#">Create</a>	The main page after a user logs in
lockers	Lockers	<a href="#">Edit</a>	<a href="#">Create</a>	
login	Login	<a href="#">Edit</a>	<a href="#">Create</a>	User page for logging in.
lots	lots	<a href="#">Edit</a>	<a href="#">Create</a>	
permits	Permits	<a href="#">Edit</a>	<a href="#">Create</a>	
register	User Registration	<a href="#">Edit</a>	<a href="#">Create</a>	
vehicles	My Vehicles	<a href="#">Edit</a>	<a href="#">Create</a>	
violations/appeals	Appeals Message	<a href="#">Edit</a>	<a href="#">Create</a>	

There are three messages to edit for the Validator Tool.

They are:

The Validator Entry message

The Validator Manage message

The Validator Report message

Each of these pages represent the three Validator Tool Pages.

header	Queue for Deletion: Common Header	<a href="#">Edit</a>	<a href="#">Create</a>	System page header on all user side pages.
lockersDisclaimer	Locker Disclaimer	<a href="#">Edit</a>	<a href="#">Create</a>	The content for locker disclaimers

To edit the message click on the **Edit** button

### Manage System Messaging

[Create Page/Message](#)

[Pages](#) | [Messages](#)

System Location	Title	English	Français	Notes
admin.validator.entry	Validator Entry	<a href="#">Edit</a>	<a href="#">Create</a>	
admin.validator.manage	Validator Manage	<a href="#">Edit</a>	<a href="#">Create</a>	
admin.validator.report	Validator Report	<a href="#">Edit</a>	<a href="#">Create</a>	
appealDisclaimer	Appeal Disclaimer	<a href="#">Edit</a>	<a href="#">Create</a>	
dashboardMessage	Admin Dashboard	<a href="#">Edit</a>	<a href="#">Create</a>	
footer	Queue for Deletion: Common Footer	<a href="#">Edit</a>	<a href="#">Create</a>	System page footer on all user side pages.

The edit page will display.

On this screen you will enter a title for your page as well as an identifier. This identifier must be unique.

You may also select a language setting for your page.

The page can be edited in the WYSIWYG editor where you can visually design the page.

**NOTE:** The main graphic image used in our example measures **1448 pixels in width and 227 pixels in height**.  
**Best practice** would be to **maintain the same width** but the **height can be your preference**. Upload the preferred image to your **Files Folder** using the **Manage Files** functionality.

Language

Layout

Layouts for messages are currently only used on permit printing pages such as permitPrintableSticker.

File Edit Insert View Format Table Tools

Format B I A A [List Icons]

Powered by TinyMCE

Words: 5

Shortcodes `[system_code]`

The system\_code shortcode is replaced with elements that are used by OPS-COM. They can be things like login forms and notification containers. They allow you to place these elements anywhere on your page that you see fit. If the page is a system page like /login, and it doesn't have the shortcode anywhere, it will append it to the bottom of the content page.

[Save Messaging](#)

It is also possible to edit the page in straight **HTML**. To do so go to the **Tools** menu and click on **<>Source Code**.
