

Ethnic Types

Navigation to Ethnicity Administration

To get to **Ethnicity Administration** click **Admin Options**, **Incidents**, followed by **Ethnicity**.

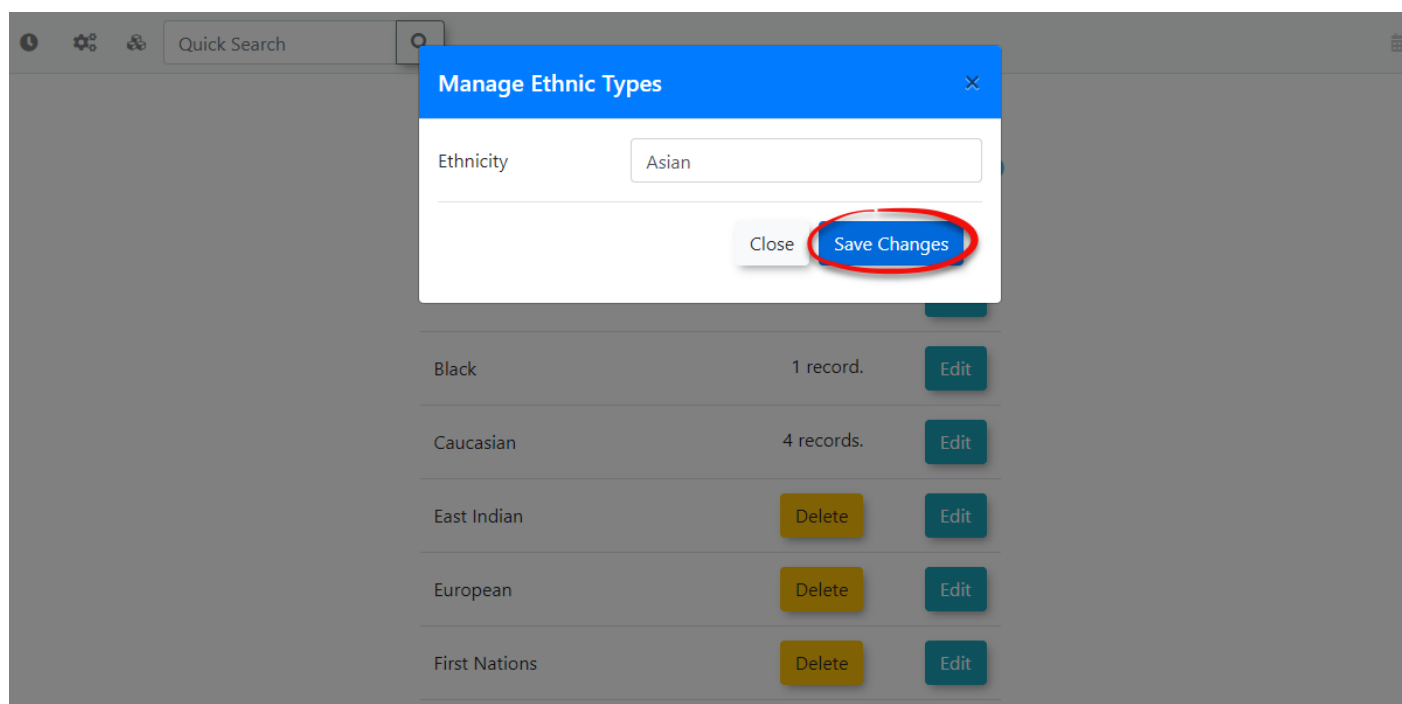

The **Ethnicity Administration** page will be displayed. This page will list all Ethnicity labels currently used in OPS-COM.

Managing Ethnic Types

Adding Types

To add a new ethnicity, click **Add Ethnic Type**. A modal window will display allowing you to add your type. When you are finished adding your type click **Save Changes**.

Editing Types

To edit/update an Ethnicity, click the **Edit** button next to the ethnicity you want to update. This will display a similar modal window as seen when adding an ethnic type and allow you to make your changes. When you are finished updating your type click **Save Changes**.

When you make changes to records that are already used in the system then you will be changing this for all records in the system using that ethnic type.
