

Incident Entry

1. Hover over the **Incidents** icon and select **Incident Entry**.

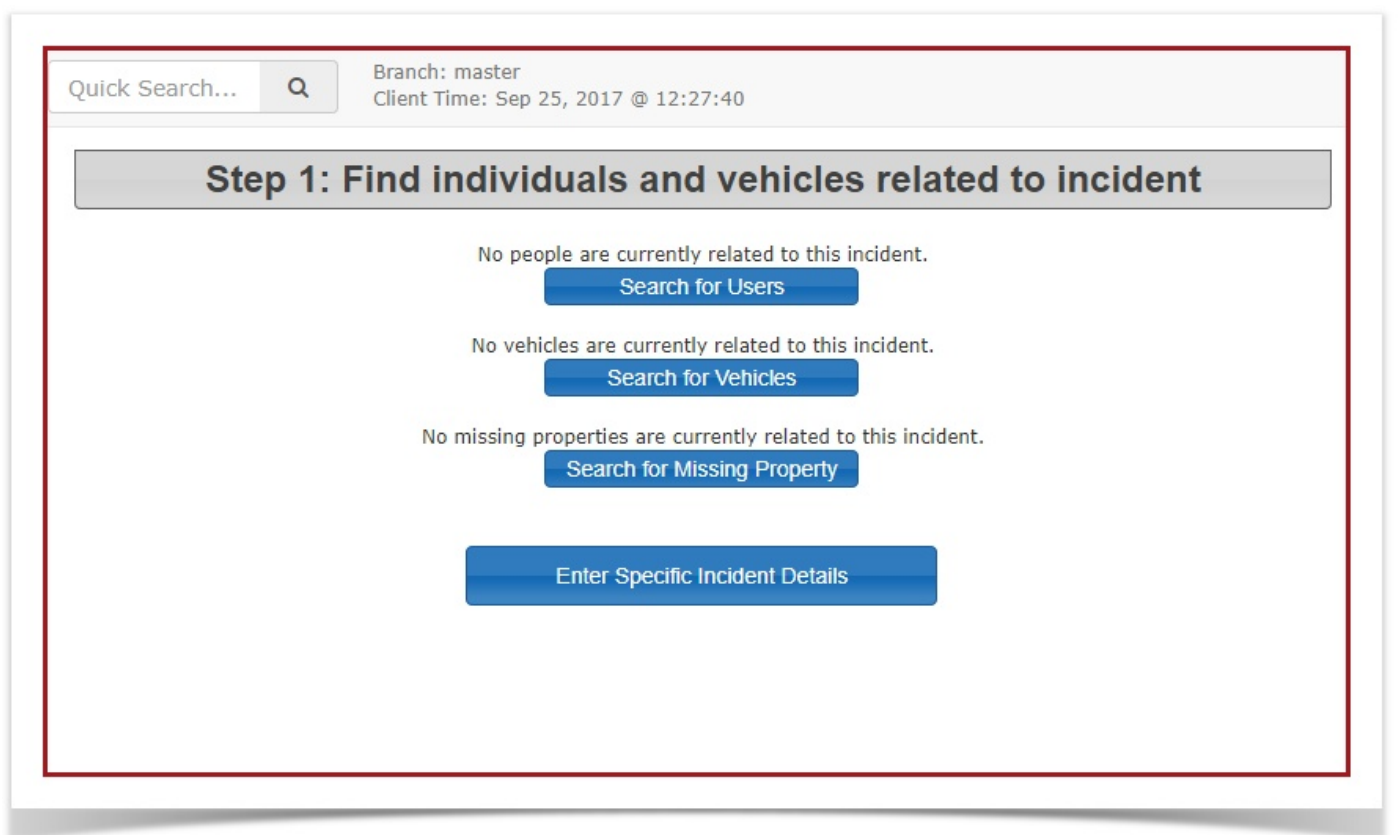

2. This will take you to the **Opened Incidents** page. Here you can select the link for a particular **Incident Number** to view the details of that particular incident or you can select the **Create a New Incident** button.

3. When you select the link to **Enter New Incidents**, this will take you to STEP 1: Finding individuals and vehicles related to an incident. Select the appropriate link to search by Users, Vehicles or Missing Property.

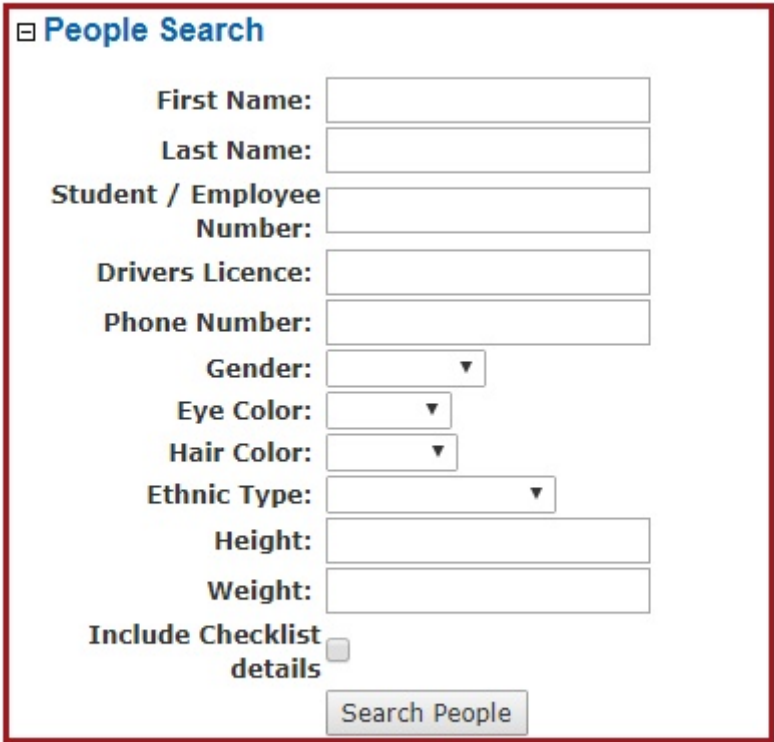

If the incident is not associated with a particular user, vehicle or missing property, select the "**Enter Specific Incident Details**" button.

4. Once you find the user that you are looking for, select the "**Add User to Incident**" button at the bottom right.

If there is no user found with the information you are searching, you can select the "**Add a New Individual to the Database**" button at the very bottom, in the center.

This will take you to the STEP 1: Quick Registration Form where you can enter all the details that you have on the individual.

Include Checklist details ☐

5. Once the user is selected or added you will be taken to a page where you can identify specifics about the individuals involved in the incident. Fill in all the details that you have. You must fill in the **Relation** field which identifies person's relationship to the incident (e.g. victim, witness, prime suspect, etc.)

Select the "**Save User Details**" button to save the details. Select the "**Search for Additional Individuals**" button to add other individuals involved in the incident. You can also add vehicle details and property details by selecting the appropriate link.

You can also select the "**Enter Specific Incident Details**" button at the bottom right if there are no other details to add related to people, vehicles, and property.

Sample Missing Property Search

The screenshot shows a web form titled "Missing Property Search" in a grey header bar. Below the header, a instruction reads "Use up to 5 search terms to retrieve missing property." There are five empty text input boxes stacked vertically. At the bottom of the form, there are two blue buttons: "Search Missing Property" and "Cancel". The entire form is enclosed in a red border.

6. Once you select the "**Enter Specific Incident Details**" button you will be taken to STEP 2: Entering Incident Information.

A summary of the people involved, vehicles involved and/or the missing property involved will appear at the top of the page. Next, you will find the **Incident Information** section where you will fill in all information that you have on the incident. (**OPS Number** is an abbreviation for **Other Police Services Number** used for tracking the incident. **PON Summons** is an abbreviation for **Provincial Offences Notice Summons**.)

To attach images, select the "**Choose File**" button beside the line for Attach Image, find and select the file that you want to attach and select the "**Open**" button. This will upload the file and attach it to the incident.

When all information is submitted in the Incident Information section, select "**Save Incident**" at the bottom of the page.
