- Enter the name of your new location. In our example the name is **Mulloy Library**.

- Select the Sub-Location(s) you would like associated with this location. Sub-Locations are used in incident reporting and do not apply to vehicle violations.
- To have the location be **Writer Visible**, click on the "**Writer Visible**" checkbox beside the location.
- The GIS **Number** is optional and is used by clients who use a geographic location code.
- Click on **Save Changes** to continue.

The Manage Locations page will refresh and display a confirmation message indicating the **Location has been updated.**
