Quick Search Tool Functionality

The **Quick Search** tool allows you to quickly find information in OPS-COM by searching specific fields. To perform a search, you must enter at least 3 characters.

Quick Steps:

1. Enter a minimum of **3 characters** in the **Quick Search** field in the main menu.
2. Review the search results.

   Types of searchable items are:

   - License plate
   - VIN number
   - Username
   - Last name
   - Email address
   - Student number
   - Employee number
   - Ticket number
   - License plate of the vehicle involved
   - Incident number
   - Payment Confirmation code
