

OPS-COM on the Web

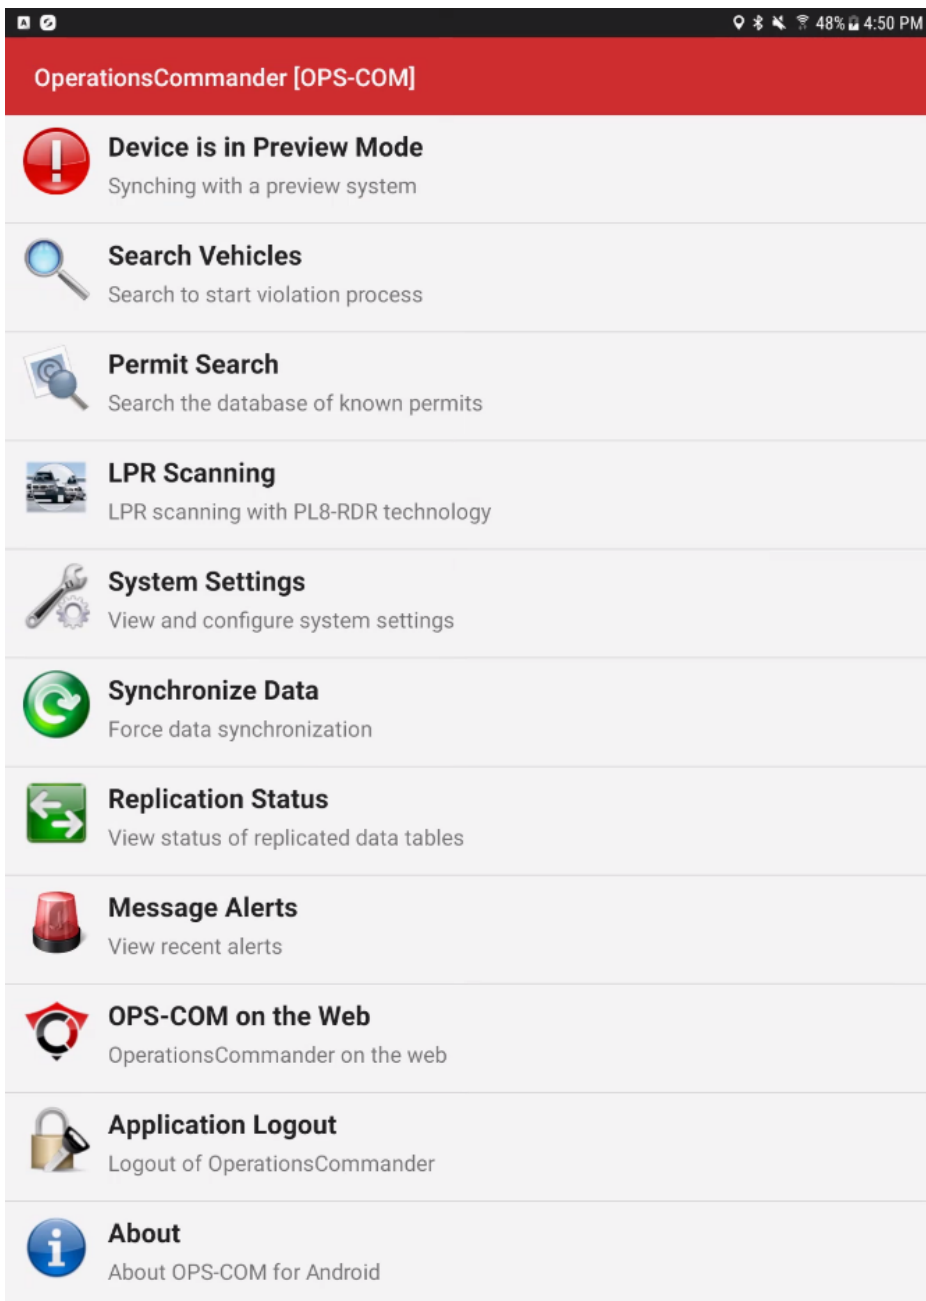

In order for this feature to work properly, the tablet must be in an area in which it is connected to the internet.

Menu Option

Using the OPS-COM on the Web option opens an internet browser and redirects the user to the OPS-COM administrator login page.

- First, tap on the **OPS-COM on the Web** option.

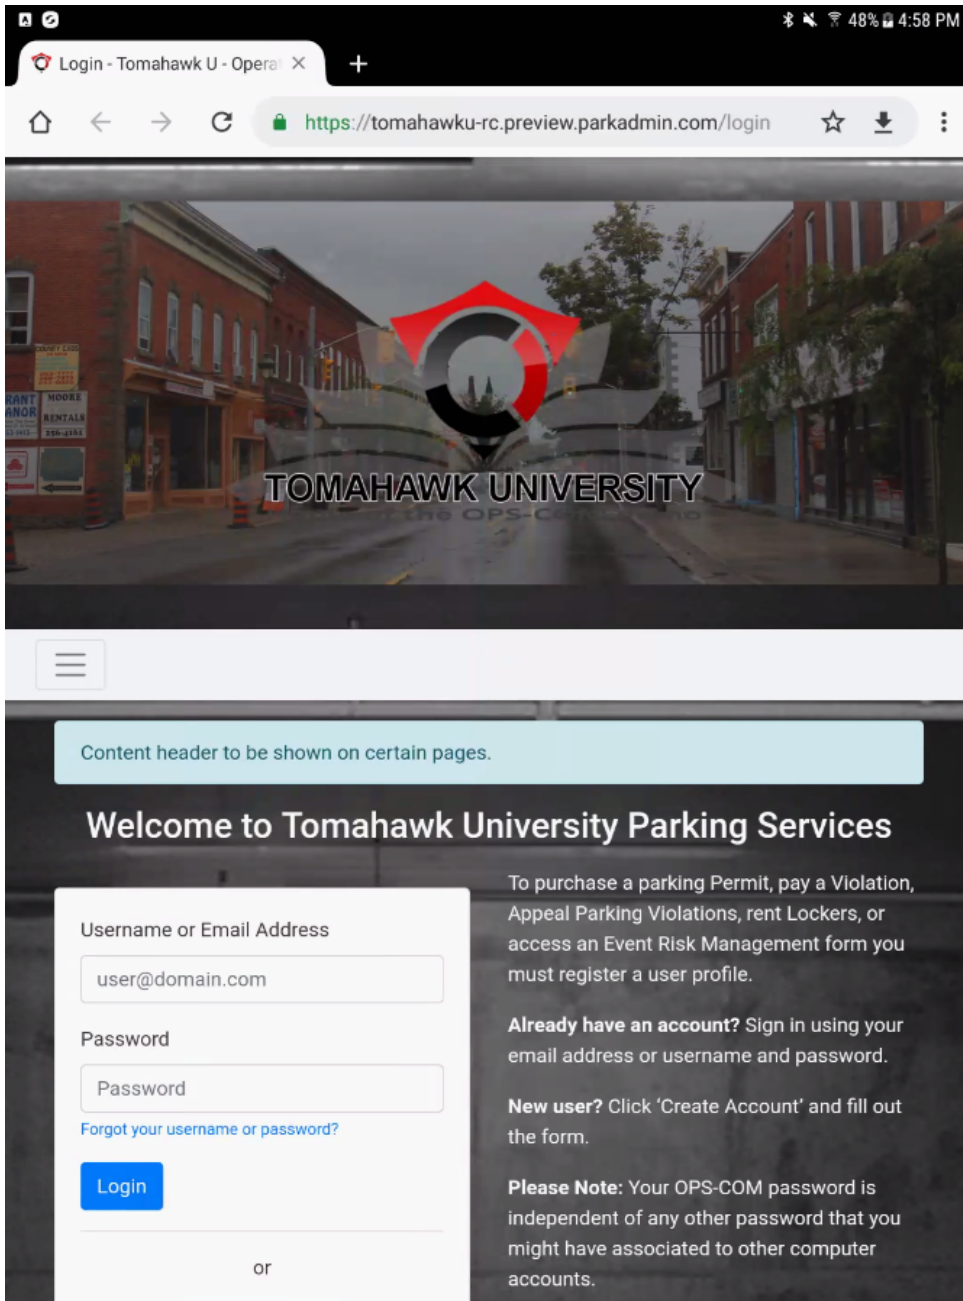

Open Browser

Depending on the browsing apps that are installed on your tablet, you will be asked what program you want to use to open the website with (e.g., Browser, Chrome, etc.).

- Tap on the browser that you want to use followed by **Just Once** or **Always**.

Login to Web Portal

This takes you to the OPS-COM login page.
