

Reset Settings for OPS-COM for Android

From time to time you may be told to perform the "Reset Settings" function in the OPS-COM for Android app. Said setting can be found in the system settings area of the OPS-COM for android app.

The reset settings function should only be performed if you have been told to do so by us. Below is a step by step guide on how to reset settings.

Step-by-step guide

1. Login to the OPS-COM App.
2. Click System Settings.
3. Scroll down and check "Reset Settings".
4. Logout of the app (back, logout).
5. Fully close the OPS-COM application.
6. Restart the tablet/handheld.
7. When you next login to the app it will re-download all system settings related data.
