

# Apply Temp Permit to User Vehicles

1. To begin, you must set the ability to apply the permit to multiple vehicles in **Lot Administration** under the **Temporary Parking** Tab.

You must enable the following items:

- **Allow temp permits to be used over 30 days.**
- **Allow All Vehicles on profile to receive permit.**

The screenshot shows the 'Temporary Parking' configuration page. At the top, there are five tabs: 'General', 'Zone & Location', 'Temporary Parking' (selected), 'LPR Settings', and 'Statistics'. The main content area includes several settings:

- ☐ This lot is for temporary parking only
- Max Permits per Day:
- Daily Cost:
- Hourly Costs:  (2 hours),  (4 hours),  (6 hours). Below this is the text 'Leave blank to disable the option'.
- ☐ Allow temp permits to be used for up to 30 days
- ☒ Allow temp permits to be used over 30 days (highlighted with a red circle)
- ☒ Allow all vehicles on profile to receive the permit. (highlighted with a red circle)
- Over 30 days Monthly Cost:
- ☐ Enable this lot for Text2ParkMe
- Text Code:
- Minimum Time:  minutes
- Maximum Time:  minutes
- Rate Per 10 Minutes:

2. Once this is set, you are ready to issue a temporary permit to multiple vehicles. To begin, go to the user's profile and click on the **Parking Tab**.

The screenshot shows a user profile page for 'Doe, John (johndoe)'. The top navigation bar includes 'Profile', 'Lockers', 'Vehicles', 'Parking' (circled in red), 'Payments', 'History', and 'Incident History'. Below the navigation bar is a 'People Alarm' section. The main content area is divided into two columns. The left column contains 'Basic Profile Information' with fields for 'Enabled' (Yes), 'User Type' (Resident 1, General User), 'Username' (johndoe), 'Name' (John Doe), 'Email Address' (jim@ops-com.com), and 'Auto Login Address' (Login as user). The right column contains 'Vehicles' (Active, ABC316, Passenger, Ontario, Dodge, 2000), 'Violations' (Ticket 16-10321, Issued Oct. 28, 2016, Value 100.00, Notes Overdue), and 'Active Permits' (Permit 0001, Active Window Y : Test Annual, Lot Name Red Staff Lot West, Amount \$11).

### 3. Select **Temporary Parking Permit**.

The screenshot shows the 'Parking Permit Registration' window. The top navigation bar includes 'Profile', 'Lockers', 'Vehicles', 'Parking' (selected), 'Payments', 'History', and 'Incident History'. The main content area has a title 'Parking Permit Registration' and a subtitle 'Register, or apply to a waiting list, for:'. Below the subtitle are three buttons: 'Standard Parking Permit', 'Temporary Parking Permit' (circled in red), and 'Associate An Access Card With This User'. At the bottom, there is a link 'Register/Update Vehicle Information'.

### 4. The **Temporary Parking Permit Registration** window opens.

In our example, we will select the **Green Staff Lot East** where we had configured the ability to apply the permit to all vehicles (Step 1 above)

Set the **start date** and **end date**. The date range must be for a period longer than 30 days in order to activate the **Apply to all Vehicles** button.

Click the button to apply the permit to all vehicles.

# Temporary Parking Permit Registration
