

Re-Sending an Invoice

Re-Sending an Invoice

In some cases, it may be necessary to re-send an invoice.

For example, if the client mistakenly deleted the email, the admin can search up the original invoice and send it again.

There are two different methods through which this can be done.

- Through the user's history.
- Through the search invoice page.

Through User Search

The user search can be found under the menu tree:

- **User Management -> User Search**

Once on the user search page, enter the user information and search the user.

Search

In the results section, click on the **username** to access the user's profile.

	Username	Full Name	Address	City	Account Number	Phone Number	User Type	User Directory
  	jdoe	Doe, Jane	123 Any Street	AnyTown	JD321 JD321		Resident 1	OPSCOM

Once on the user's profile, hover over **History** and navigate through the menu **History -> All Records** to access the list of this user's transactions.

Total \$28.25

Balance Due \$28.25

Paid on Aug 20, 2024

Re-send Email

The invoice email will be re-sent to the user.

The title will indicate that it is an invoice that has been re-sent.

Re-sent: Invoice is ready: Jane Doe

From: [REDACTED]

To: [REDACTED]

Through Invoice Search

The other way to locate an invoice to re-send is using the **Invoice Search** tool.

The page can be found under the menu tree:

- **Permits -> Invoice Search**

This will open the invoice search page.

Re-send Email

This will re-send the invoice email to the user.

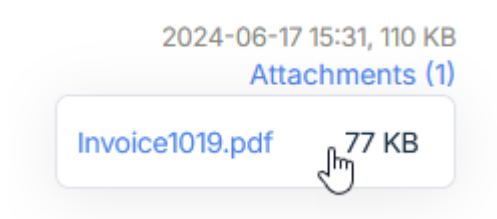

Printing From Emailed PDF

A PDF of the invoice can be printed from the email that was sent.

First navigate to the invoice email in the client email and find the where attachments are stored.

In this example, the attachments are located in the top right.

Download the PDF when prompted.

After the file has been downloaded, the PDF will automatically open, likely in the web browser.

Printing directly from this page will result in the printout being cut-off. To prevent this, first download the PDF to your computer disk.

The save button will be located in the top right.

Save the file to the preferred location and open it with any PDF reader.

From here, print the PDF like a normal document while ensuring that the print scale is set to 100%.

This will prevent the printout from being cut-off.
