Title		Type	Days	Sale Start Date	Active Start Date	Sale / Active End Date
Monthly 1807 July		M	30	Jun 15, 2018	Jul 1, 2018	Jul 31, 2018

The **Create New Sales Window** window appears. Enter the information for the new sales window.

In this example, we are creating a **yearly** permit sales window with the following information:

- Sale Start Date of December 28th, 2019 (*When the permits will be available to purchase*)
- Active Start Date of January 1st, 2020 (*What date the permit becomes valid*)
- Sale/Active end date of December 31st, 2020 (*What date the permit expires*)

Sale Start Date	Active Start Date	Sale / Active End Date
The day that the permits are on sale and users can begin to purchase permits in the lots that use this sales window.	The day the permits become valid (Useable, Scannable, Swipe able, LPR/Handheld Reads, etc.). This allows you to sell your permits in the Sale Start Date field but not allow them to be valid until a certain date.	The official end date that permits can be sold until, or can be active for, in this sales window. Remember Active differs from Sale .

Activating the Sales Window

Once the sales window has been configured it needs to be made active. To do so, click on **Active Sales Window** to view the list of current and future sales windows.

The list of sales windows appears. Notice the new sales window we created is now in the list but not yet activated.

Active Permit Sales Window

[Manage Sale Windows]

Select the permit sales window(s) that are currently active.
