Add permits to lot: 123 Main Street Lot

Specify the permits you wish to add to the lot.

Permits

*Enter permits one per line.
Any characters are allowed.*

0023

Permit Range

Enter the numerical range to be created for permits. Prefix and postfix are available to add in letters or numbers before or after the permit number.

Prefix

Start

End

Postfix

A confirmation page will be shown before actually creating the permits.

You can use both areas to create permits at the same time.

Optional items When using ranges, postfix and Prefix are not required.

Required items When using ranges, start and end numbers are required and must be integer values.

Permit numbers are only unique to the Lot. They can be reused for other lots. If you are wanting to move permits from one lot to another, you must also archive the permits in the original lot.
