

Vehicle Colours

Managing the Vehicle Colour Picklist

Hover over **Admin Options** and click **Vehicles** followed by **Vehicle Colors**.

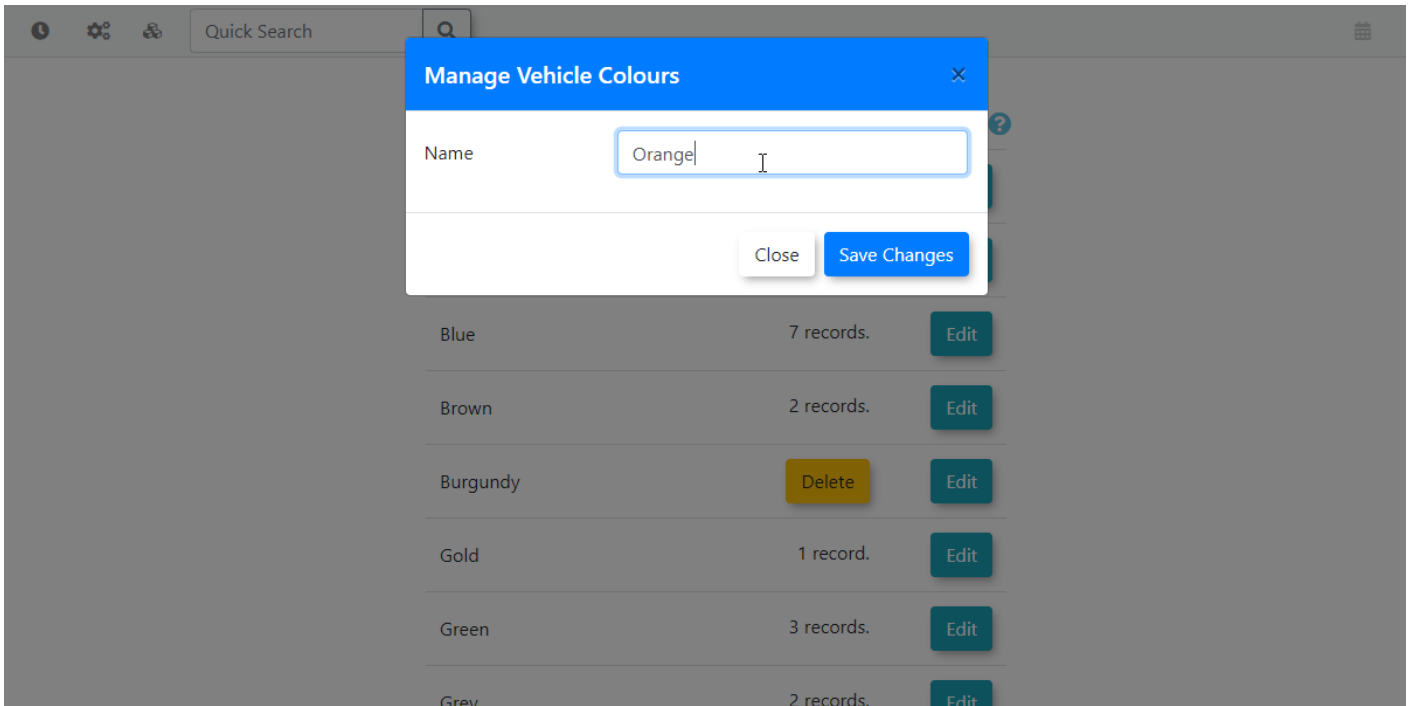

The **Manage Vehicle Colours** page will display.

Manage Vehicle Colours		
		<div>Add Colour ?</div>
Beige	3 records.	<div>Edit</div>
Black	6 records.	<div>Edit</div>
Blue	7 records.	<div>Edit</div>
Brown	2 records.	<div>Edit</div>
Burgundy	<div>Delete</div>	<div>Edit</div>
Gold	1 record.	<div>Edit</div>
Green	3 records.	<div>Edit</div>
Grey	2 records.	<div>Edit</div>
...	...	<div>Edit</div>

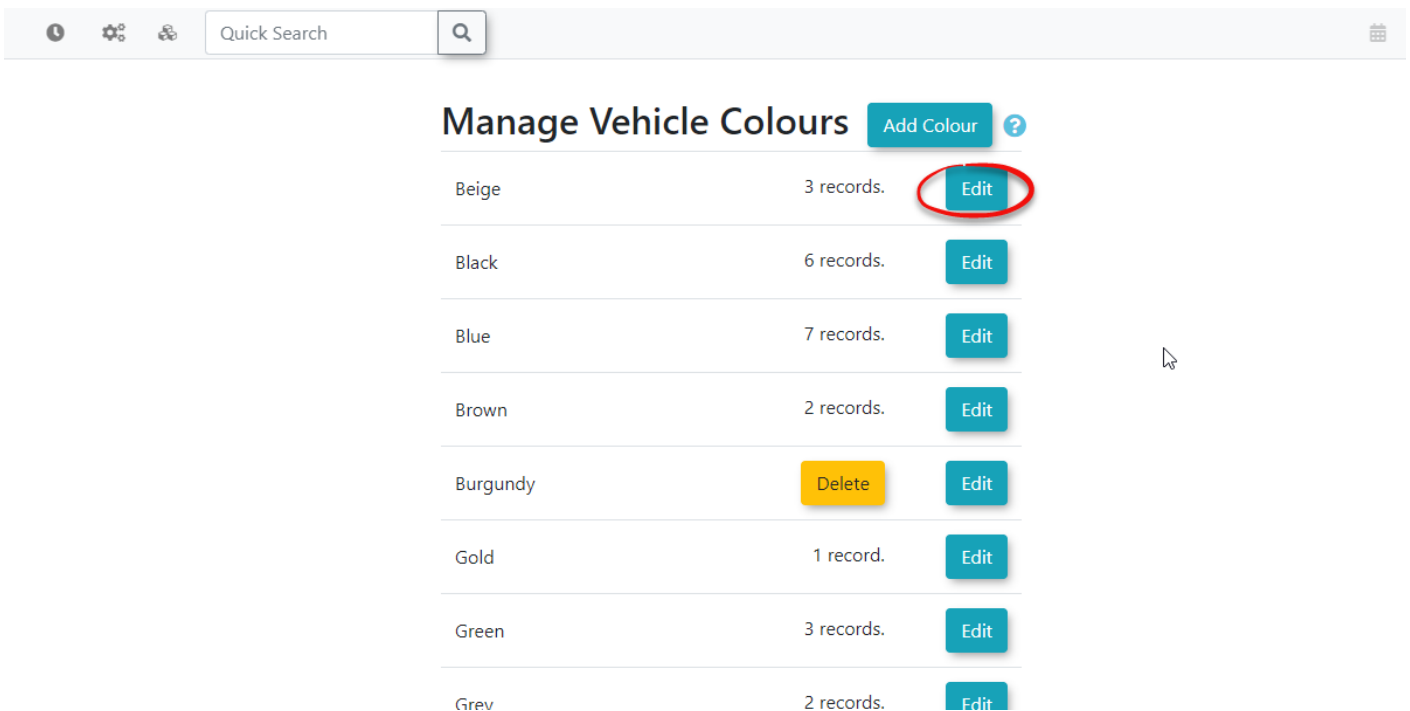

Adding Vehicle Colours

To add a new colour, click the **Add Colour** button. The **Manage Vehicle Colours** modal will be displayed. Enter the colour name and click **Save Changes** when you are finished.

Editing Vehicle Colours

To edit a colour name, click the **Edit** button and follow the prompts.

Click **Save Changes** to make the changes, if there are any errors while editing the vehicle colour name they will be displayed before allowing you to save.

Deleting Vehicle Colours

To delete a colour name, click the **Delete** button and follow the prompts.

Important

If the vehicle colour is currently being used in the system it cannot be deleted by admins. You first need to go into each vehicle record associated to this colour and change their colour type.
