

Displaying Towing Charges on a Violation

Depending on your policy, some institutions tow vehicles and some do not. If you do charge a fee for towing, this can be shown on the violation you give to the parker. Even though a towing cost may not apply in all cases, some organizations have it display a **\$0.00** value just as a reminder that a vehicle could possibly be towed. This is a setting that can be enabled on the handheld unit. This article will walk through the process of enabling Tow Charges to print on a Violation.

1. To enable this setting, go to **System Settings** on the handheld units. By default, the setting is disabled. This means that no Towing charges would print.

This is an example of the Violation with **no** Towing Charge:

OPERATIONSCOMMANDER
PARKING VIOLATION NOTICE

Tomahawk University
Notice of Violation

Ticket: 10-01007-23
Date: Nov 22, 2017 11:08:37 AM

This is an example of the Violation with a **\$0.00** Towing Charge:

Please Note:

It is important to note that if a towing charge was actually applied to the violation, in all cases, the towing charge would appear regardless of this setting.
