Managing Validator Records

In this example, we will add a validation for a vehicle with the plate number **BIRCH** in the **GARAGE L1 Lot** starting **June 4th** and expiring on **June 4th**.

Enter the **plate number**

Choose Garage L1 as the **Lot Zone**

Enter your time frame and click on **Validate**

The screenshot shows a web interface titled "Validate Parking". The form contains the following fields and controls:

- Plate:** A text input field containing "TOMA92". To its right is a blue button labeled "Toggle Advanced Options".
- Comment:** A large, empty text area.
- Lot Zone:** A dropdown menu currently showing "- Select Lot Zone -".
- Valid Between Dates:** Two date-time input fields. The first contains "Jun 04, 2019 16:12" and the second contains "Jun 04, 2019 17:12".
- Validate:** A prominent blue button at the bottom of the form.

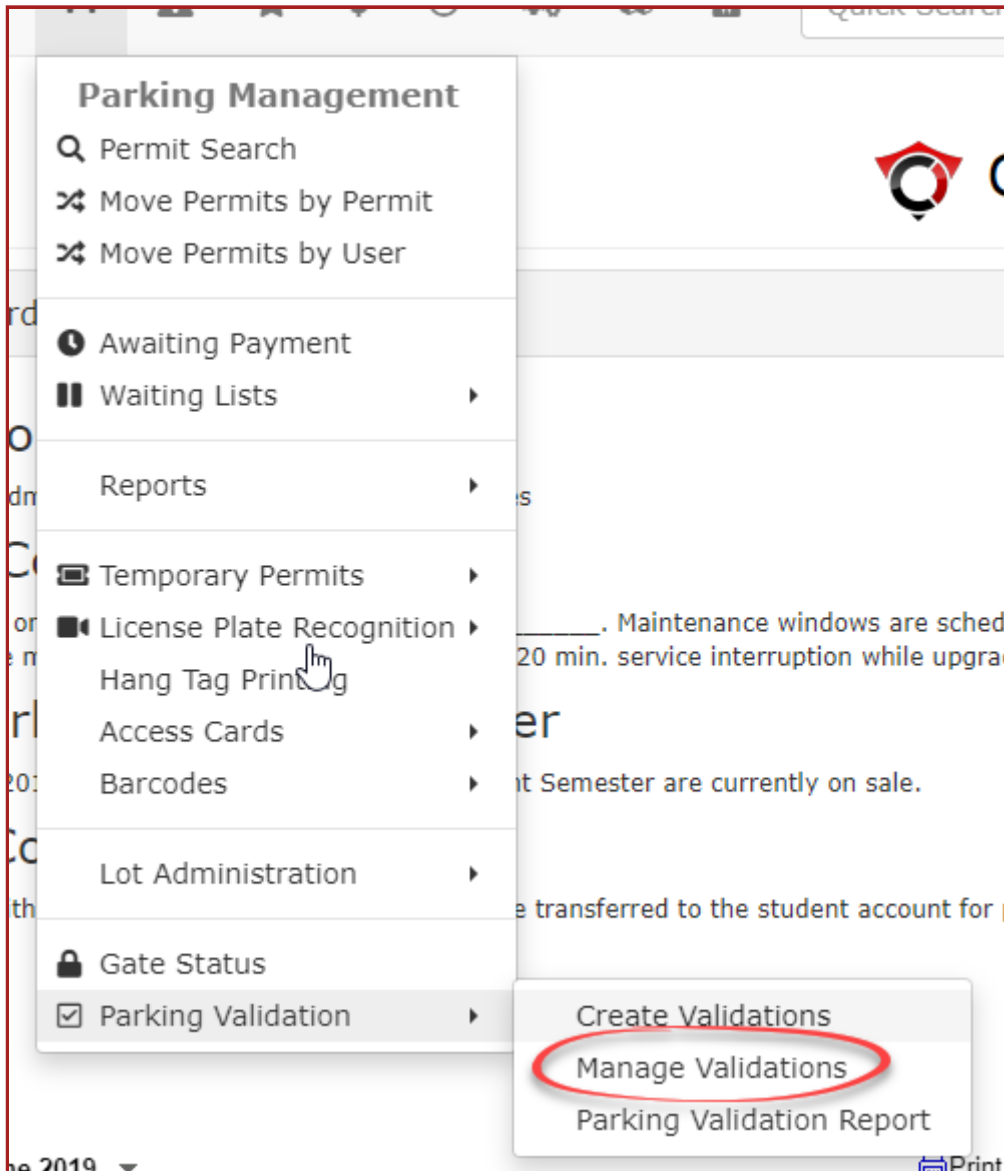

At the bottom of the interface, there is a grey bar with the text "Active Parkers" followed by a question mark icon and a blue "Refresh" button.

Once we have created the record, it will appear in the **Validate Parking Report**.

If the entry was done in error, it can be removed through the **Manage Validation** tool.

To do so, hover over **Parking Validation** under the **Parking Management**

Menu and select **Manage Validations** from the drop down menu.

In the management tool, enter the **Plate Number** in question along with the **Lot Zone** you wish to view.

To delete the record click on the **Delete** button associated with the record to highlight it with the check mark.

Manage Validated Parking

Plate: TOMA92

Lot Zone: - Select Lot Zone -

Report Range: Starting Jun 01, 2019 16:27 Up to Jun 04, 2019 16:27

| <input type="checkbox"/> Delete | Josh @ Tomahawk | Garage L1 | BGR435 | Validations for upcoming events | Jun 4, 2019 @ 3:30 pm | Jun 7, 2019 @ 4:25 pm | 72:55 |
| Total Duration in Hours:Minutes: | | | | | | | 219:40 |
| Total Records: | | | | | | | 4 |

You will be prompted to confirm the archiving of the record. Click **Archive** to continue.

A pop-up message will confirm the deletion of the record.

Once the record is deleted, you will notice it will be removed from the **Validator Parking Report**.
